2000 Series Slim Line

The Slim Contemporary Line 2000 window system was designed with the new home construction and renovation markets in mind. Engineered to achieve excellent thermal and operational performance while maintaining the highest level of efficient use of materials and hardware. Versatility in models and dimension make this window system the homebuilder's dream. 4-1/4" Frame depth with wood return channel design, intended for new construction application and replacement projects.

Features and Extras

- Multi-point sash locks and snubbers provide extra security, tighter seal, and greater comfort.
- Designed to accommodate 7/8" Double-pane IG units and 1 3/8" Triple-pane IG units (Triple available on Casements, Awnings, Fixed window, Picture Frame).
- Interior glazing.
- Multi-chambered profile design for better R-value.
- Full perimeter triple weather seals for air tightness and reduction of dust infiltration.
- Compression-seal technology protects against air, water, and noise infiltration.
- Complete accessories and common parts available.
- Made with 100% Virgin PVC powder compound - formulated to surpass AAMA requirements.
